

Conflict Mineral Policy

Roxtec only sources from suppliers confirming they are "conflict free".

Conflict free means that no conflict minerals (Tin, Tantalum, Tungsten and Gold usually referred to as 3TG) necessary for the functionality or production of supplied materials, directly or indirectly finance or benefit armed groups through mining or mineral trading in the Democratic Republic of Congo or an adjoining country.

Roxtec suppliers are expected to have policies and procedures in place to ensure that products and parts supplied to Roxtec are conflict free. Suppliers delivering part/products containing 3TG minerals shall provide all necessary information to confirm material included in Roxtec parts/products is conflict free.

Our suppliers are expected to adopt policies and management systems with respect to conflict minerals and to require their suppliers to adopt similar policies and systems. Compliance to these requirements will be taken in consideration when both selecting and retaining suppliers.
